

ART & DESIGN BUILDING

location: Cazenovia, NY
owner: Cazenovia College

site plan

The Art & Design Building at Cazenovia College is a new center for studio and teaching space for the College's expanding art and design program.

The building is located adjacent to a residential neighborhood, and is designed to integrate into the surroundings. The building facade is broken up into many smaller facades and rooflines to mimic smaller houses on Sullivan and Seminary Streets.

Trowbridge & Wolf designed a flexible outdoor space suitable for use as an outdoor sculpture gallery and gathering space for art openings. Surrounding the sculpture court is a native bluestone wall that offers privacy from the neighborhood, while reinforcing the residential stature of the space.

entry to the sculpture court from the street
