

# KENDAL AT ITHACA

location: Ithaca, NY

owner: Kendal at Ithaca

Kendal at Ithaca is a life care facility that includes 204 residential units (both condominium-style and apartments) and a large, combined community center and healthcare facility on a 105-acre site.

Trowbridge & Wolf provided full site-planning and design services for the project including site planning, layout and grading, storm drainage, lighting, and landscaping. The goal of the design was to provide a cohesive landscape plan that retains an intimate, residential quality.
