

HERMANN J WIEMER WINERY

location: Dundee, NY

owner: Hermann J Wiemer Winery

The Hermann J. Wiemer Winery is located in an 1880's barn on a farm overlooking Seneca Lake. All of the winery operations and the retail shop are housed in the barn. Trowbridge & Wolf Landscape Architects was asked to develop a plan that provides definition and separation between the public and working farm functions, creates an appropriate visitor entrance to the retail shop, and includes outdoor wine tasting and special event areas. The design needed to be appropriate to the scale of the very large barn and also reflect the rural working farm setting. The solution is an entrance courtyard defined by fieldstone walls, large slate paving stones, and white gravel. Copper planter boxes, designed to match the height of the walls, showcase seasonal floral displays and mark the visitor entrance. The wine tasting terrace is paved with bluestone and is also supported by fieldstone walls.

The winery was featured in *Wineries With Style*, by Peter Richards in 2004
